

# DOCUMENTATION STRATEGY OF SEMANTIC APPROACH TO MODELLING A CONSUMER ELECTRONICS ENTERPRISE

Mentor: Michael Galkin

Group: Shirin Ameri

Shiva Shokuhi

Eliza Koshtoyan

Yi Chen

# DOCUMENTATION STRATEGY

- 1) Technical System Documentation: Information about **architecture, components** and **ontology** (Sparx system Enterprise Architecture Model)
- 2) End-user System Documentation: **User manual**

# TECHNICAL SYSTEM DOCUMENTATION PLAN

## ○ Architecture information:

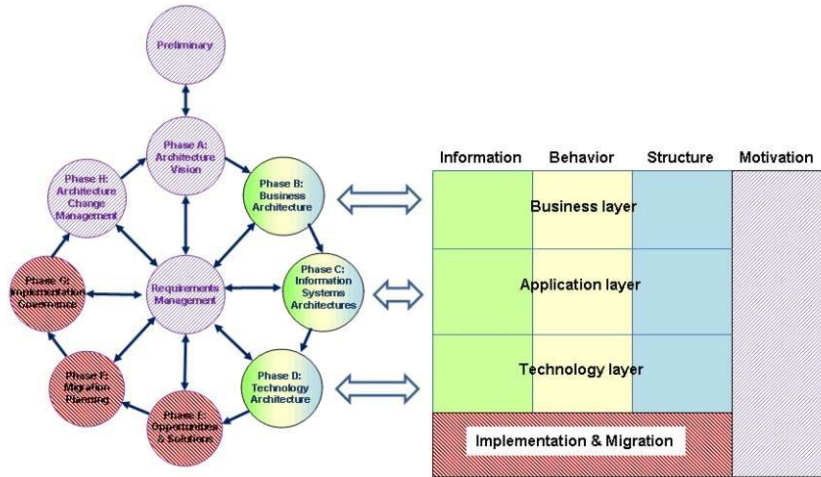

- Framework **ToGAF**
- Layers
- Components
- Inner structure of business processes (comment about every entity)

Modeling tools : **ArchiMate** and **BPMN**

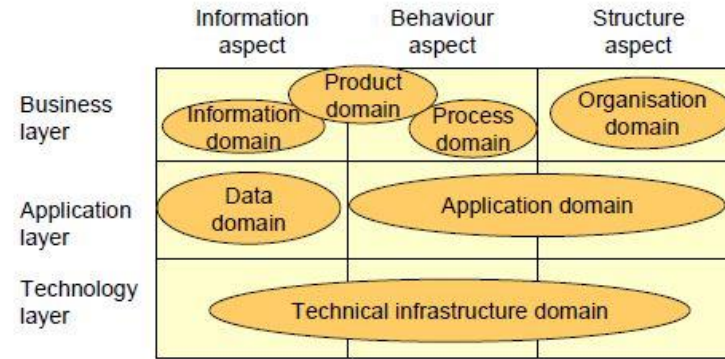

## ○ Ontology documentation :

- the brief summary about developing of ontology.

# TECHNICAL SYSTEM DOCUMENTATION PLAN

**Framework and Layers**

**Components**

# END-USER SYSTEM DOCUMENTATION PLAN

- User manual
  - Describe the enterprise system that is implemented
  - Comprehensive, consistent and unambiguous modeling EA
  - Analyze the users to suit the manual for the largest user
  - Configuration procedure
