

# **Modeling System**

Set-up and showcase of mini-project

Presented by : Naurin Jamil and Dmytro Iarovyi

# Process Picture

1. **Domain:** E-commerce ( to set-up a model of an online shop, e.g e-bay)
2. **Tool :** Architecture of Integrated Information System, ARIS ( it provides export/import interfaces that enables the re-use of ARIS models). Also, to explore EMF, to choose better tool.
3. **Goal:** implement the model and extend it to publish data online (use RDF/ linked-data)

# WorkFlow
