

Testing

Cheng Fang
Ziduan Fang

- **Strategy:**
 1. Choose a simple pptx file with hierarchical structure and then upload it, check if it works well.....(no extra bullet, display issues of title)
 2. For uploading latex and open office files, we need to test if the library we import can be used. Choose any latex or open office file, upload it, and check...
- **Testing Steps:**
 1. Unit testing
 2. Intergration testing
 3. Validation testing
 4. System testing

Thanks
