Darya Tarasowa

### **Group G Members**

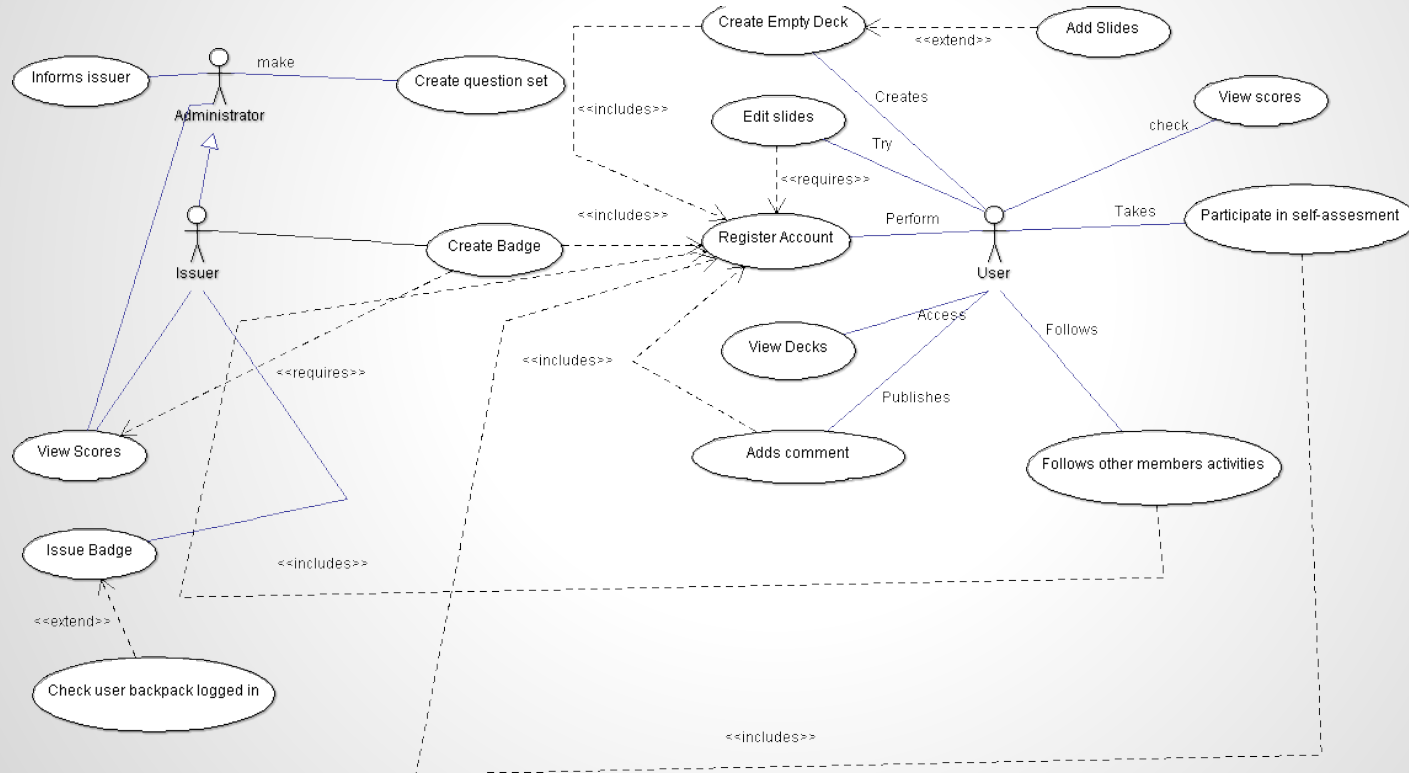

Amir Ansari, RWTH Aachen

Salman Ahmed Siddiqui, RWTH Aachen

Nishananth Baskaran, Universität Bonn

Raghunandan Palakodety, Universität Bonn

# Use case / scenario specification

# Use Case/Scenario Specification

- ❖ Badges have to be successfully issued to the users who achieve their goals.
- ❖ Badges should also be issued to the users who successfully finishes their assessment.
- ❖ Badges which are digital representation, should convey the user's experience, skill learning achievement.
- ❖ Users should have the flexibility to combine all the badges they had obtained in order to tell their complete story of achievements.
- ❖ Users can choose what badges can be displayed in their profile.
- ❖ Users can be able to verify the badges (i.e) checking whether the badge is valid and issued correctly.
